SUMMARY

Highly accomplished Senior Software Engineer with over 10 years of experience specializing in Angular and full-stack development. Proven track record in leading development teams, delivering high-impact projects, and driving technical innovations. Expert in Angular (up to v16), state management (Redux, NGRX), and API development (NodeJS/ExpressJS, Python/Django). Adept at working in agile environments, managing cross-functional teams, and delivering robust, scalable solutions. Passionate about mentoring and staying ahead of the curve through continuous learning and industry involvement.

WORK EXPERIENCE

Lead Developer

B&M Development Services, January 2019 - Present

Projects:

- **Fedex Feb 2024 - May 2024**

- Successfully augmented the team to meet critical deadlines for a new package tracking application, leveraging Angular v16 and NGRX, resulting in a 20% increase in tracking efficiency.

- **FINRA June 2023 - Dec 2023**

- Led the development of an online E-Bill system with a microservices architecture. Upgraded Angular from v12 to v16, implemented AgGrid solutions, and streamlined fee management for brokers, enhancing system performance by 30%.

- **SuperHiFi Nov 2021- May 2023**

- Directed the creation of a Program Director dashboard for AI-powered radio experiences, utilizing Angular v12, Typescript, and AWS Lambda. Achieved a 50% reduction in development time through optimized processes and regular sprint demos.

- **Defense Logistics Agency Dec 2021 - Dec 2022**

- Spearheaded the upgrade of a dashboard application from AngularJS to Angular v13, ensuring compliance with DLA standards and improving code maintainability by 40%.

- **CVS Pharmacy May 2021 - Dec 2021**

- Built a custom remote video consultation solution using Angular v10, enabling remote pharmacists to provide patient counseling services for multiple locations. Technologies used included Angular v13, NGRX, Typescript, RxJS, WebSockets, Node, and Express.js.

- **Cisco (via Capgemini) June 2020 - May 2021**

- Worked on the Innovation Hub team maintaining a large-scale Angular 10 application with a NodeJs backend. Increased code coverage from 30% to 80%+ using CypressJs testing suite.

- **RevOps.io Jan 2020 - June 2020**

- Rebuilt the leading company site for RevOps.io using Javascript, ReactJS, and GatsbyJS static site generator

- **RescueVessle Jan 2020 - June 2020**

- Rebuilt the leading company site for RescueVessle using Javascript, ReactJS, and GatsbyJS static site generator

- **FINRA Jun 2019 - Jan 2020**

- Ensured compliance for social media posts in a Python/Django environment. Assisted in transitioning to updated LinkedIn partner messaging APIs and improved tracking for lexicon-checking solutions.

- **Las Vegas Athletics Club (LVAC) Jan 2019 - June 2019**

- Built a custom SPA using Angular v7 and NGRX for a Redux state store integrated into a WordPress site for a class reservation system. Recently upgraded the system from Angular v7 to v9.

- **Tallwave May 2018 - Jan 2019**

- Built a customizable frontend banking application using Javascript, Angular v6, and NGRX. Developed a custom NodeJS authentication solution and a dashboard for internal monitoring.

Remote Senior Software Engineer

SemanticBits, 2017 - 2018

- Rewrote software for the Centers for Medicare and Medicaid's Quality Payment Program, enhancing usability and performance for healthcare providers. Utilized Angular 6, Redux (NGRX), NodeJS, and MongoDB, resulting in a 25% increase in data processing speed.

Senior UI Engineer

Clickfox, May 2016 - Apr 2017

- Led the significant rewrite of a big data frontend application, incorporating Angular, TypeScript, RxJS, and D3.js. Collaborated with Pivotal Labs on test-driven development, achieving over 90% code coverage and delivering high-quality software.

Senior Software Engineer

GoHunt.com Dec 2015 - May 2016

- Provided testing and feature support for their Javascript/ReactJS site, providing nationwide support for hunters and fishers.

UI/UX Engineer

Emil Interactive Gaming, July 2015 - Dec 2015

- Built the user interface and developed engaging user experiences using Javascript, AngularJS, ReactJs, Grunt, KendoUI, HTML5, CSS3, and Javascript for the DraftOps.com product. Built API /Redis Monitoring service using NodeJS / ExpressJS. Developed administration dashboards for DraftOps.com Daily Fantasy Sports product. Worked in a DotNet environment and consumed a DotNet API.

UI/UX Engineer

Allegiant Travel Company, Feb 2015 - July 2015

- Developed booking, accounting, sorting, and credit management applications for travel agents, using Javascript, AngularJS, Bootstrap, Stylus, and Node.

SKILLS

- Angular (every version to v18)
- Node.js
- Express.js
- MongoDB
- Mongoose
- Postgress

- Sequelize
- API Development
- GraphQL
- RxJS
- NGRX state management
- Redux state management
- TypeScript
- JavaScript
- HTML5
- CSS3
- Object Oriented programming
- Agile methodologies
- Microservices
- GIT, Slack, Jira, Zoom, Basecamp
- Proxmox

Frontend Development: Angular (every version to v18), ReactJS, JavaScript, TypeScript, Tailwind, Bootstrap, Angular Material, D3, ChartJS, Gridster, HTML5, CSS3

Backend Development: Node.js, Express.js, Python/Django, MongoDB, Mongoose, Postgress, Sequelize, PocketBase, AWS Lambda, Serverless

State Management: Redux, NGRX, RxJS

API Development: REST, GraphQL

Tools & Platforms: Jenkins, Google Cloud, Azure, GIT, Slack, Jira, Zoom, Basecamp, AWS, Docker

Methodologies: Agile, Microservices, OOP

•

HOW I STAY CURRENT

- Regularly engage with leading tech platforms like Egghead.io, Pluralsite.com, and attend industry podcasts such as Adventures in Angular, Angular Air, and JavaScript Jabber. Continuously learning and implementing the latest trends in web development.
